GPS Tracking System

For security,
discipline, safety,
efficiency and
peace of mind

GS102 Tracking Platform

People, vehicles, animals, documents and valuable assets can easily stray from their location or deviate from their proper direction.

Now you can track them if they move, where they move, when they move and how long they move from one point to another. On real time.

And you can see the object on a map with street names and landmarks and with a record of the exact time and date of their whereabouts.

Here is more for motor vehicles. You can determine the number of liters in the tank, the gas consumption of travel from one location to another, sudden gas withdrawals from a stationary vehicle.

The program can show how many liters of gas are loaded in the tank which you can then compare with the quantity

of gas shown in the gas station invoice.

The program keeps a historical record of all trips and routes on the map, gas consumption, gas intake as well as the exact time and date.

And you can access all these records from your computer at any time and have the pages printed.

No guess work. Just plain application of our tracker with global positioning system.

Know how far GPS and computer technology has gone in application on our day-to-day needs. Try Multi-Line's cost efficient, budget-friendly and reliable Rope GPS Tracking System.

We will be glad to demonstrate it.

Examples of Tracking Applications

Buses and Cars

Taxis

Police Cars

Delivery Trucks

Containers

Motorcycles

GPS Tracking Devices

VEHICLE TRACKERS

M508

M588L

M528

MOTORCYCLE TRACKER

M588

FEATURES OF TRACKERS		VEHICLE TRACKERS			MOTORCYCLE TRACKER
		M508	M588L	M528	M588
1.	Accurate GPS positioning, dynamic positioning deviation is less than 5 meters	✓	✓	✓	✓
2.	Can work with cell phone for voice and texts and computer programming	✓	✓	SMS Configurable. Listening function only	SMS Configurable Only
3.	Compact and easy to install	✓	✓	✓	✓
4.	Historical logging of data and maps for easy retrieval and playback	✓	✓	✓	✓
5.	Easy access to statistics and capability to print historical logs and data	✓	✓	✓	✓
6.	Can lock or disable vehicle by remote	✓	✓	✓	
7.	Two-way voice communication function	✓	✓		
8.	Capable of resending data from signal dead zone	✓	✓	✓	✓
9.	Provide alarm on fatigue driving	✓	✓	✓	✓
10.	Can provide SOS alarm	✓	✓	✓	
11.	Can monitor and set alarm for over-speeding	✓	✓	✓	✓
12.	Can provide alarm on unauthorized door opening or engine start	✓	✓	✓	
13.	Provide fuel consumption	✓	✓		
14.	Provide alarm on unauthorized withdrawal of vehicle from assigned location or deviation from assigned routes	✓	✓	✓	
15.	Capable of working with support peripherals such as scheduling screen and cameras	✓	✓		
16.	As an option, can monitor available gas in tank and provide statistics on fuel consumption, kilometer run, kilometers per liter per trip	✓	✓		
17.	With built-in 16MB flash capable of saving 30,000 blind tracking data.	✓	✓	✓	✓
18.	Waterproof (need waterproof bag)	✓	✓	✓	✓
19.	Speed dial				
20.	SOS buttons	✓	✓	✓	✓
21.	Can be monitored via SMS without Monitoring Systems platform				
22.	Provide alarm in case user goes outside of designated route or perimeter	✓	✓	✓	✓
23.	Backup battery	✓	✓	✓	
24.	Monitors mileage	✓	✓	✓	✓
25.	Shock resistant	✓	✓	✓	

For technical details, kindly ask for technical brochure for each model.
