

Service Organization

Preventive Maintenance and Systems Rehabilitation

From Multi-Line, three decades of building trust.
Through competitive pricing and quality.

Making your building systems work through the years for you.

The expertise you need comes from years of practice

More than 30 years of experience

With more than three decades of experience and expertise, Multi-Line Building Systems, Inc. distinguishes itself from competition with its capability to provide regular preventive maintenance service.

Multi-Line also can repair and rehabilitate building and auxiliary systems of any age.

It is the only systems integrator with a full-pledged service organization for more than 20 years now.

Continuous training and technology updating is a calling

Whether it is FDAS, CCTV, BMS, BGM/PA, card access or other auxiliary systems, Multi-Line can help you keep your building and auxiliary systems functioning continuously and with reliability.

In many cases the technical team in Multi-Line can also do preventive maintenance service of other brands which Multi-Line does not carry.

This is possible through the years of experience of Multi-Line and the continuous training we give our technical people.

Multi-Line, a trusted name in the industry

Through the years, Multi-Line has established itself as a trusted company in providing preventive maintenance service and rehabilitation works.

Currently, we are servicing such companies as Ayala Properties Management Corp., FLI, SM Prime Holdings Inc., Megaworld, ETON Properties, San Miguel Corp., PLDT, Rockwell - Meralco BPO Venture, Unionbank Plaza Condominium Association Inc., Greenfield Development Corp., RCBC Realty Corp., Quantavis Resources Corporation, Asian Development Bank, Bangko Sentral ng Pilipinas-SPC, Palacio De Gobernador and POEA.

We not only sell you a system. We make it work for you through the years.

Call us for your concerns.
