

**World Class**  
WPC Panels

**From Multi-Line, more than three and half decades of building trust.  
Through competitive pricing, quality and care.**

**Art comes from the care, creativity and character of the artist  
whose aim is to inspire the spirit.**

**Our role in Multi-Line is to provide the materials and technology!**

## What are WorldClass panels made of?

WorldClass ceiling and wall panels are made of WPC (Wood Plastic Composites) materials.

WorldClass panels are specified for Outdoor and Indoor Applications. Outdoor applications have UV resistance to minimize fading overtime as a result of exposure to the sun.

The composites of WPC are made of wood fiber or flour and thermoplastics such as PE, PP, PVC or PLA.

## Why are WorldClass panels in great demand?

Facade and interior designers are always on the lookout for innovative products that can satisfy their ever-changing demands for beauty and suitability of applications.

WorldClass supports such drive and passion and provides designers the materials and technology to practice their profession

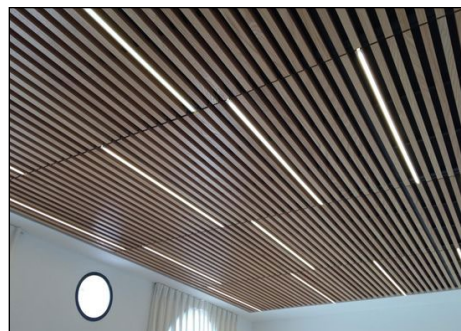

## What features can one expect of WorldClass WPC panels?

- Lightweight
- Comes in many designs
- Waterproof
- Hidden fasteners
- Versatile mix & match designs
- Easy to install
- UK Class 1 fire rating
- Custom designs available with minimum order quantity

## What profiles and designs does Worldclass WPC panels have?

Worldclass has the most number of profiles and colors in the industry today.

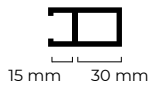

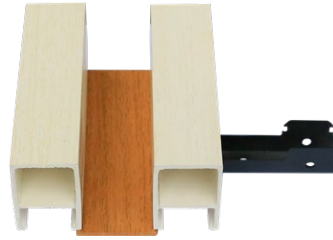

With minimum order quantity, we can provide custom-made products in varying colors, providing the creative designer a field day everyday.
